cFocus Software Incorporated is Certified as a Participant in SBA's 8(a) Business Development Program

Largo, MD – (BUSINESS WIRE) – cFocus Software Incorporated, a federal software consulting and project management services provider, announced today that the company has become certified as a participant in the U.S. Small Business Administration's (SBA) 8(a) Business Development Program.

According to the SBA 8(a) Business Development MIS (http://www.sba.gov/idc/groups/public/documents/sba_program_office/8abd_bdmis_user_guide.pdf), "Assistance is rendered to eligible firms in a structured developmental process over a nine-year program participation term. Services include provision of: developmental analysis, counseling, and project monitoring; management and technical assistance authorized under section 7(j) of the Small Business Act; and access to business development opportunities under section 8(a) of the Act."

"This is a great day for the company!" said Mr. Jasson Walker Jr., President of cFocus Software Incorporated. "This certification opens many opportunities for continued business growth. We look forward to being an outstanding participant in this program," he said.
