cFocus Software Incorporated Teams with ASD, Inc. & Lockheed Martin to Provide IT Services to WHS/HRD

Largo, MD – (BUSINESS WIRE) – cFocus Software Incorporated, a federal software consulting and project management services provider, announced today that the company has teamed with ASD, Inc. (www.asd-inc.com) and Lockheed Martin (www.lockheedmartin.com) to provide IT services to the Human Resources Directorate (HRD) of Washington Headquarters Services (WHS).

The Human Resources Directorate (HRD) is one of eleven Directorates of the Washington Headquarters Services, a Department of Defense (DoD) Field Activity. The mission of the HRD is to provide human resource (HR) services for executive, political, military, and civilian personnel; perform security investigations and clearances; conduct adjudications and appeals; and manage the various voluntary campaign programs, e.g., the annual DoD Combined Federal Campaign.

cFocus Software Incorporated will provide application development and project management services to WHS/HRD. The company will be responsible for the maintenance and management of several GOTS software applications in use at WHS/HRD. In addition, the company will provide leadership and management services for WHS enterprise-level projects.
